

MEDIFIT

Sturdy, practical ambulatory care medical bed

REF. HP57439BTT

AHF®

A MEDJUNIC COMPANY

The **MEDIFIT** 5-function electric medical bed has been specially designed for ambulatory care services and convalescent and rehabilitation centres. With its particularly robust construction (safe working load 250 kg) thanks to its "Pantographe" height adjustment system, the **MEDIFIT** bed is also extremely user-friendly (5-function bed with integrated extension and wall bumpers, tool-free panel removal, quick access to actuators for simplified maintenance, etc.)

Technical specifications

HEIGHT ADJUSTMENT

PANTOGRAPHE

- The Pantographe height adjustment system makes for a very robust bed with a high safe working load. There is enough clearance under the frame to allow use of an overbed table or patient lift

HEAD AND FOOTBOARDS

2 types of panels (tool-free removal)

- Polypropylene (PP) for maximum hygiene, customisable with its laminate insert (40 mm thick)
 - Full melamine panel for enhanced aesthetics (38 mm thick)

WALL BUMPERS

- Protective bumpers integrated directly at the head of the bed (optional) bumper extension (10 cm)
- Rounded protective bumpers integrated directly in the bed base

ACCESSORY ANCHORS

- 4 for drip holder
- 2 for hand control pendant holder (at the head of the bed)
- 2 for trapeze bar holder (at the head of the bed)

FUNCTIONS

MULTIFUNCTIONAL

- Variable height / Backrest (with autoregression) / Footrest (knee break) / TR/ATR / Cardiac chair position

BED BASE

- 3 removable compact laminate flat modules, extremely durable for optimum lifespan

(optional) SIDE RAILS

- 3/4-length rails

EXTENSION

- Integrated in the foot of the bed with mattress extension rest (easy access and tool-free setup)

BRAKES

- (optional) Central at the foot of the bed (with 125 or 150 mm servo castors)

CASTORS

- Swivel castors with single wheel diam. 125 mm including 2 with integrated brake (visual of the bed shows it with 150 mm dual wheel castors)

FRAME

- Easy access underneath the bed
- Steel frame for maximum robustness

BATTERY

- Backup battery (included)

CPR

- The emergency bed flat function can be quickly activated using 2 easily accessible bilateral handles

Key data

Variable height (with 125 mm castors) and under-frame clearance

31 cm – 84 cm
18 cm

SWL (patient weight)
Empty weight (without accessories)

250 kg (185 kg)
100 kg

Backrest angle
Knee break
TR/ANTI-TR angle

70° (max.)
30° (max.)
17° / 12.5° (max.)

Extension

18.5 cm

Dimensions (without side rails)
Lying surface

222 x 94 cm
200 x 90 cm

Materials
(depending on choice of head and footboard panels)

Steel, Polypropylene, Laminate, Melamine

Single-wheel castors

360° / Ø 125 mm

Supply voltage

100-230 V, 50/60 Hz
Max. 3.15 A

Certification Standards

CE (REG (EU) 2017/745)
NF EN 60601-2-52
NF EN 60601-1-2
NF EN 60601-1
