

PANTOGRAPHE (PANTO)

Sturdy, practical ultra-low hotel-style medical bed

REF. SAP57439BTT

A MEDJUNIC COMPANY

The **PANTOGRAPHE** ultra-low electric medical bed has been specially designed for **long stay care facilities such as retirement and nursing homes**. It is particularly well suited to **rest homes looking to minimise their upkeep and maintenance costs**. With its particularly robust construction (safe working load 250 kg) thanks to its "Pantographe" height adjustment system, the **PANTOGRAPHE** bed is also extremely practical (integrated extension and wall bumpers, tool-free panel removal, etc.). With a **24 cm low position**, it also aims to improve patient autonomy and the comfort of healthcare staff.

Technical specifications

HEIGHT ADJUSTMENT

PANTOGRAPHE

• The Pantographe height adjustment system makes for a very robust bed with a high safe working load. There is enough clearance under the frame to allow use of an overbed table or patient lift

HEAD AND FOOTBOARDS

2 types of melamine panel available (tool-free removal, 19 mm thick):

- Solid panel (A)
- Handrail panel (B) (solid wood handrail)

ACCESSORY ANCHORS

- 4 for drip holder
- 2 for hand control pendant holder (at the head of the bed)
- 2 for trapeze bar holder (at the head of the bed)

WALL BUMPERS

- Protective bumpers integrated directly at the head of the bed (15.5 cm)
- (optional) bumper extension (10 cm)

CPR

- The emergency bed flat function can be quickly activated using 2 easily accessible bilateral handles

FUNCTIONS

MULTIFUNCTIONAL

- Variable height / Backrest (with autoregression) / Footrest (knee break) / TR/ATR / Cardiac chair position

BED BASE

- 5 removable slats made of recycled ABS
- (optional) Compact laminate flat bed base

CONTROLS

- Intuitive wired hand control pendant (included), with the option to disable certain functions
- (optional) Caregiver control panel to hang on the footboard or 3/4-rails

(optional) SIDE RAILS

- 3 concepts : half-length rails, 3/4-length rails

EXTENSION

- Integrated in the foot of the bed with mattress extension rest (easy access and tool-free setup)

BRAKES

- Semi-centralised, bilateral at the head/foot of the bed

CASTORS

- Swivel castors (360°), dual wheel, diam. 50 mm
- Encased as standard for a "non-medical" look

FRAME

- Easy access underneath the bed
- Steel frame for maximum robustness
