

A MEDIUNIC COMPANY

**Specialist in the design and manufacture of
healthcare furniture**

EHPAD & HOSPITALS

SINCE 1947

A PROPOS DE NOUS

Since 1947, **AHF** (Ateliers du Haut Forez) has been the embodiment of excellence in 100% French healthcare furniture.

The company began by manufacturing bicycle frames before innovating in 1966 with its first healthcare bed, responding to the growing needs of care establishments.

Thanks to an integrated production chain (**metalwork, joinery, leather goods, painting and assembly**), AHF designs customized solutions that combine quality, safety and ergonomic design. Committed innovation and eco-design, the company offers sustainable equipment perfectly adapted to the requirements of nursing homes, hospitals and clinics.

For professionals

Thanks to its craftsmanship and industrial expertise, **AHF** now offers a complete range of healthcare beds and furniture for all your sectors of activity.

SUSTAINABLE DEVELOPMENT

Responsible production

In our **10,000 m²** factory, industrial performance is combined with a commitment to the environment. Optimized production, customized solutions and personal care guarantee quality and sustainability for every healthcare facility.

Eco-design & Eco-production

Recyclable and durable materials, reduced energy consumption, and manufacturing designed to minimize environmental impact: each product combines innovation and responsibility to deliver more sustainable medical furniture.

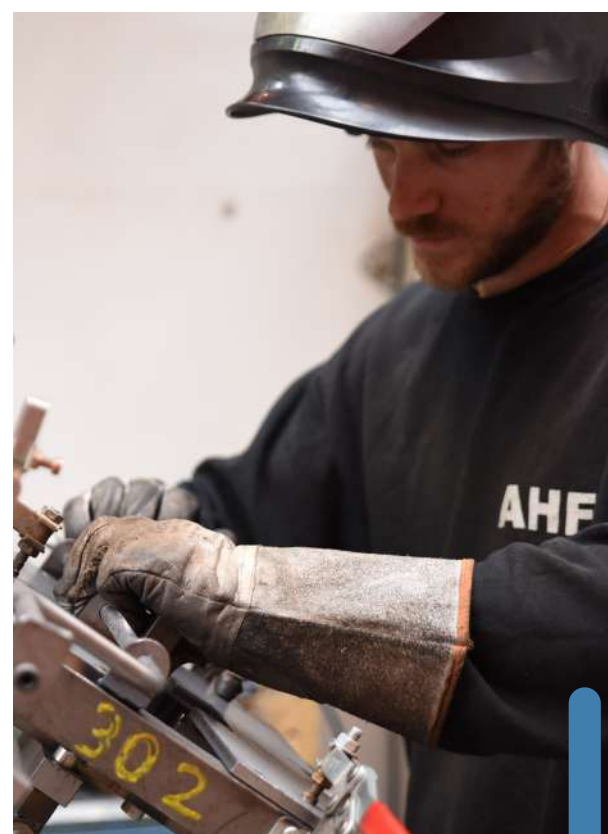

Eco-driving

Transport optimization, waste management, and guiding clients toward sustainable solutions: our eco-responsible commitment goes far beyond manufacturing.

Collective strength

Behind every product **are dedicated men and women** driven by a shared mission: to design reliable, ergonomic, and sustainable medical furniture. Fostered by a culture of innovation and collaboration, each team contributes to the continuous improvement of our solutions.

An inclusive and stimulating work environment promotes personal growth, creativity, and excellence in the service of care.

After-sales service

Because every medical device must remain operational, our team ensures delivery, installation, and responsive after-sales service.

Thanks to preventive and corrective maintenance, we intervene within 24 to 72 hours to diagnose, repair, and extend the lifespan of your furniture.

Our readily available spare parts inventory guarantees prompt support, minimizing any disruption in your healthcare facilities.

Support

Our SAV-SECOND LIFE program allows you to optimize the lifespan of your equipment while ensuring quality and safety for both patients and healthcare staff.

With a dedicated team of experts, we support you at every stage to provide solutions tailored to your needs. Reliability, responsiveness, and expertise are at the heart of our commitment.

CERTIFICATIONS AND STANDARDS

Our company is ISO 9001 certified, ensuring our clients high-quality services and products.

We completed the EcoVadis assessment in November 2024, demonstrating our commitment to sustainability and social responsibility. We continue to strive for improved practices and a stronger positive impact.

Our products bear the **CE marking**, ensuring their compliance with European standards for safety, health, and environmental protection. This certification guarantees quality, reliability, and regulatory compliance, meeting the highest European standards.

AHF is committed to the planet every day through a strong CSR policy built around five key pillars:

- Eco-design of products
- Eco-production across the 5 integrated workshops at the factory
- Reuse and optimization of packaging
- Eco-driving practices among logistics partners
- Health and safety of AHF employees
